

Special Offer • Save 25%

*Purchase any Recombinant Proteinase K product at a 25% discount off current list prices. Must reference Promo #PROK0122 when you place your order. Institutional discounts apply up to the 25% maximum discount, however void where prohibited by institutional policy. Limited offer expires 3/31/22, or while supplies last.

Proteinase K, Recombinant

Proteinase K (PROK) is an animal free serine endopeptidase with a broad spectrum of action, recombinantly produced in yeast.

Recombinant Proteinase K is also available as a 20mg/ml stable liquid solution, DNase and RNase Free

Proteinase K, Recombinant, Solution, 20mg/ml		Special Pricing			
A concentrated, ready to use liquid formulation.	≥400 units per	PROKRS	LS004254	5 ml	\$ 90.00
Proteinase K prepared at 20mg/ml in 10mM	milliliter		LS004256	25 ml	360.00
Tris-HCl, 1mM calcium acetate, pH 7.5 containing			LS004258	Bulk	Inquire
50% glycerol. DNase and RNase Free.					
Animal Free. Store at -20°C					
Proteinase K, Recombinant, Lyophilized					
A lyophilized powder. Purified to remove DNase	≥20 units per	PROKR	LS004248	25 mg	\$ 28.50
and RNase.	mg dry		LS004249	100 mg	60.75
Animal Free, Store at 2-8°C.	weight		LS004250	1 gm	465.00
			LS004252	Bulk	Inquire

Applications: Since most microbial or mammalian DNases and RNases are rapidly inactivated by the enzyme, Proteinase K is very useful in the isolation of highly native, undamaged DNAs or RNAs, particularly in the presence of 0.5 - 1% SDS.
